MYZEK®

Manual for use with model numbers: MYTH01D, MYTH02D, MYTH03D, MYTH04D

Digital Tubular Heater

This item gets very hot: do not touch the tubular heater when it is switched on. Do not cover the tubular heater as this will cause overheating. Never place the tubular heater directly on the floor without using the feet.

WARNING: Check the product before use: if the cord is damaged, it must be replaced by the manufacturer if still under warranty, or similar qualified person to avoid any hazards.

READ ALL INSTRUCTIONS PRIOR TO USE.

Safety Instructions

General safety instructions for the Digital Tubular Heater: Warning: Read all the instructions. Failure to comply with the following instructions can lead to electric shocks, fires or serious injury.

SAVE THESE INSTRUCTIONS.

The term "tubular heater" in the following text refers to your mains operated unit.

1. Safety Regulations

During the first use the heater may emit a small amount of vapour which is perfectly normal. The reason for this is the heating wire element is coated with lubricant oil during the production process. This will stop after approx. 5 minutes after the first use and is not a safety concern.

IT IS IMPORTANT ALL ELECTRICAL DEVICES ARE PLUGGED INTO POWER THAT IS PROTECTED BY A SAFETY SWITCH.

- The tubular heater is not suitable for use outdoors.
- Do not submerge into water.
- Place in a safe place away from flammable objects.
- Do not place flammable liquids or gasses near the heater.
- Do not place the heater directly below the socket outlet.
- Do not let the power cord over hang or touch the tube.
- Keep out of reach of children and animals product gets hot to touch.
- THE SURFACE OF THIS TUBULAR HEATER CAN STILL GET HOT. IT IS
 THEREFORE RECOMMENDED THAT THE AGED, INFIRM, CHILDREN AND
 ANIMALS ARE NOT LEFT UNSUPERVISED IN THE VICINITY OF THE HEATER
 UNLESS A SUITABLE GUARD IS FITTED.
- This is not a toy.
- Switch off appliance when not in use.
- Do not hold or carry the tubular heater by the cord.
- If using an extension cord it must be as short as possible and fully extended.
- Check heater regularly if using with a timer or any other device that switches the tubular heater on or off automatically.
- This leaflet should be retained for instructions on use.

2. Safety Thermal Cut-out

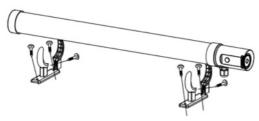

The appliance is fitted with a thermal cut-out. Once the tubular heater has cooled down it will re-set itself automatically.

Installing & Operating the Digital Controlled Tubular Heater

• THE TUBE HEATERS MUST BE MOUNTED HORIZONTALLY NOT VERTICALLY.

Step 1.

 Install the support bracket to the tube heater as shown below using the fixings supplied.

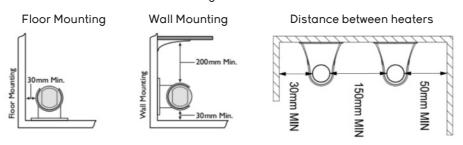

Step 2.

• Fix the tubular heater to your chosen position to the wall or floor.

Important:

• The heater should have the following distances from walls or between 2 heaters.

Step 3. Operation

DIGITAL TUBULAR HEATER: Advanced digital display, with smart working mode, touch button / screen display, thermal cut off, countdown timer and cyclically timer

- A) Ensure the plug is plugged into the plug socket, the unit power light will illuminate showing the symbol "--" which means the unit is in standby mode and will not heat.
- B) Press the "on/off setup button" and the unit will display "00" meaning the heater will operate heat continuously in normal mode with no timer settings.
- C) Press the "on/off setup" button once more and D will display and "00" will flash; you can choose how many hours you want the unit to operate in a 1-24 hour period by pressing the up or down arrow. When the set hours have elapsed the unit will switch off.
- D) Press the "on/off setup" button once again and 📆 will display, and "00" will flash. This feature lets you set the time in hours for when you want the unit to switch on by pressing the up or down arrow, for example if you set to 4 hours the unit will count down and switch on after 4 hours have elapsed and will continuously give out heat until you switch the unit off.
- E) Press the "on/off setup" button once again and \checkmark will display and "00" will flash. This feature lets you set the timer to come on and off cyclically, this means for example you choose 2 hours, the unit will operate for 2 hours and switch off for two hours and repeat this process until you switch the unit off. This feature is a great energy saving feature.
- F) The heater is fitted with a safety device which will switch off the heater in case of accidental overheating.
- G) To reset the tube heater, turn off the heater switch and unplug for a few minutes to allow the unit to cool down.
- H) Make sure that any causes of overheating, such as obstructions, are removed and plug the appliance in again and operate as normal.
- I) Turn off and unplug the unit when not in use or during the warmer months or when you are away from home for extended periods of time as a safety precaution and as a energy saving function.

4. Cleaning

- Ensure product is unplugged from the mains and left to completely cool down before attempting to clean.
- Wipe with a soft damp cloth and then dry with a soft dry cloth. DO NOT use abrasive cleaning powders, clothes or metal polishes on any part of the tubular heater as this will cause damage.

5. Digital Tubular Heater Specifications

Model No.	Power	Electrical Supply	IP Rating	Product Length (mm)
MYTH01D	60W	220-240V, 50 Hz	IP44	340mm
